Dear Mr. Moore:

On July 31, 2006, a complaint investigation survey was conducted at Hancock House - CTM Enterprises. As a result of that survey, deficient practices were found. The deficiencies were cited at the following level(s):

- Non-core issues, which are described on the Punch List, and for which you have submitted evidence of resolution.

This office is accepting your submitted evidence of resolution.

Should you have questions, please contact Patrick Hendrickson, R.N., Health Facility Surveyor, Residential Community Care Program, at (208) 334-6626.

Sincerely,

PATRICK HENDRICKSON, R.N.

Dear Mr. Moore:

On July 31, 2006, a Complaint Investigation survey was conducted at Hancock House - CTM Enterprises. The facility was found to be providing a safe environment and safe, effective care to residents.

The enclosed form, stating no core issue deficiencies were cited during the survey, is for your records only and need not be returned.

Please bear in mind that non-core issue deficiencies were identified on the punch list, a copy of which was reviewed and left with you during the exit conference. The completed punch list form and accompanying proof of resolution (e.g., receipts, pictures, policy updates, etc.) are to be submitted to this office by August 30, 2006.

Should you have any questions about our visit, please contact me at (208) 334-6626.

Sincerely,

Dear Mr. Moore:

On July 31, 2006, a complaint investigation survey was conducted at Hancock House - CTM Enterprises. The survey was conducted by Patrick Hendrickson, R.N. and Polly Watt-Geier, LSW. This report outlines the findings of our investigation.

Complaint # ID00001459

Allegation #1: When a resident resided at that facility, she had a strong smell of urine, her hair was "ratted" and her clothing was dirty.

Findings #1: Based on interview and record review it was determined a resident that had resided at the facility did have a strong smell of urine, her hair was "ratted" and her clothing was dirty.

Review of the facility's admission/discharge log on 7/31/06, documented the identified resident was discharged on 6/1/06 and therefore could not be interviewed or observed.

Review of the identified resident's closed record on 7/31/06, revealed an Negotiated Service Agreement (NSA) dated 7/5/05 that documented the resident needed assistance with urinary incontinence at night, wore depends and needed reminding to wash and bath herself.

Additionally the resident's closed record contained daily log notes from 2/9/06 through 5/29/06 that documented the resident wet the bed on the following dates: 2/9/06, 2/18/06, 4/20/06, 4/27/06, 5/17/06, 5/18/06, 5/19/06, 5/24/06, and 5/29/06.

The record also contained a signed physician's order dated 7/31/05 documented the resident was to take oxybutynin 5 mg twice a day and 10 mg at night. On 8/1/05 the order was changed to 5 mg three times a day and on 4/6/06 the oxybutynin was changed to 5 mg at mid day and 10 mg at bed time.

Oxybutynin chloride was used to treat urinary incontinence.

The resident's record also contained nursing assessments dated from 2/9/06 to 4/4/06 that documented the resident was incontinent of urine and that staff were to assist the resident to the toilet during the night. On 12/15/05 the facility nurse documented the resident would wet the bed at night. Further on 4/4/06 the facility's nurse documented the resident had an appointment with a urologist on 4/6/06.

On 7/31/06 at 9:30 a.m., the house manager stated the resident refused to shower and refused to get up during the night to go to the bathroom. She stated that she would cue the resident to shower and the resident would run the water, but wouldn't go into the shower and clean herself. She stated she and the administrator met with the resident to discuss the urinary incontinence issue. The resident's urinary incontinence continued and she was given a written notice of discharge.

On 7/31/06 at 11:00 a.m., the administrator stated the identified resident refused to shower and would wet her bed continuously. He stated he sat down with the resident and house manager and discussed concerns of cleanliness and behaviors. He stated the resident's behavioral needs could not be met and she was given a written notice of discharge. Additionally, he stated the facility's nurse was not involved in the planning of how to deal with the resident's urinary incontinence because it was believed to be more of a behavior rather than a medical condition.

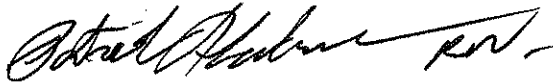

Conclusion #1: Substantiated. The facility was issued a deficiency at IDAPA 16.03.22.305.01 for the facility's nurse not assessing a resident's response to medication and prescribed therapies for a resident with urinary incontinence. The facility was required to submit evidence of resolution within 30 days.

Based on the findings of the complaint investigation, the facility was found to be out of compliance with the rules for Residential Care or Assisted Living Facilities in Idaho. A Statement of Deficiencies has been issued to your facility. Please develop a Plan of Correction as outlined in the cover letter to the Statement of Deficiencies. AND/OR Non-core issues were identified and included on the Punch List.
